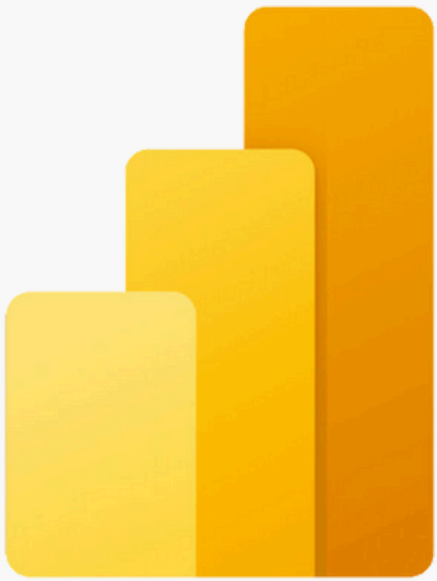
INSTALLATION GUIDE FOR POWER BI



Power BI

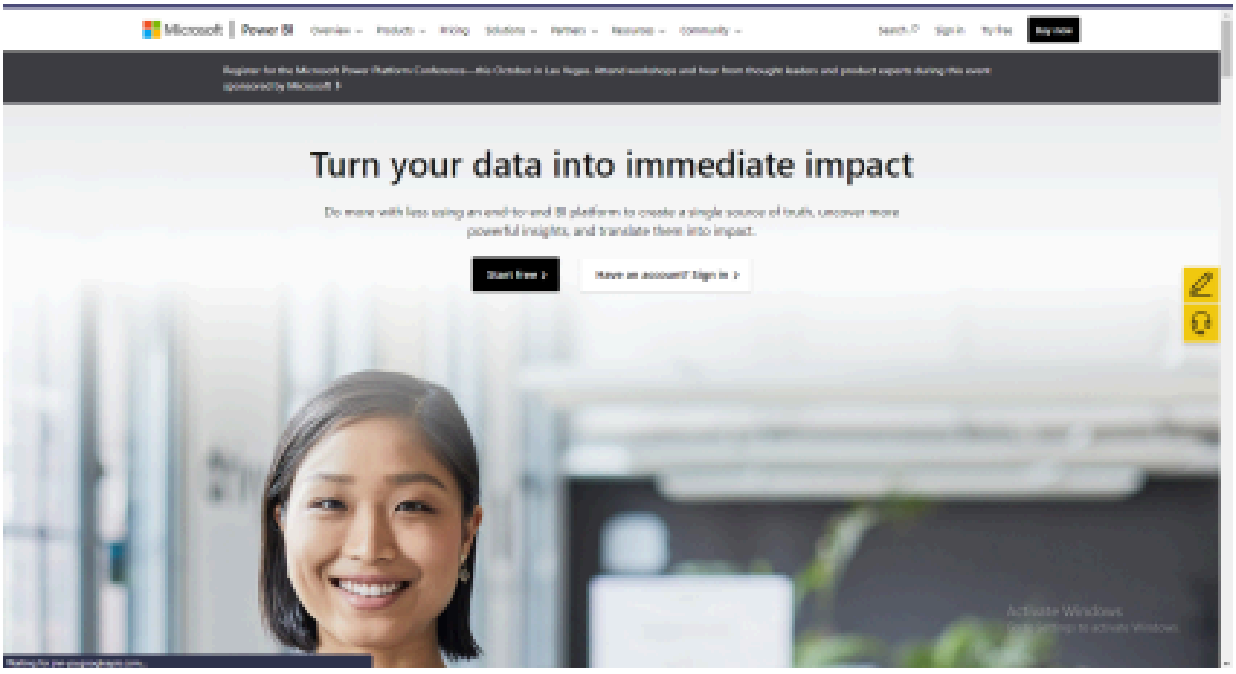
PowerBI Installation

OVERVIEW & PURPOSE

In this session, participants will do PowerBI Installation

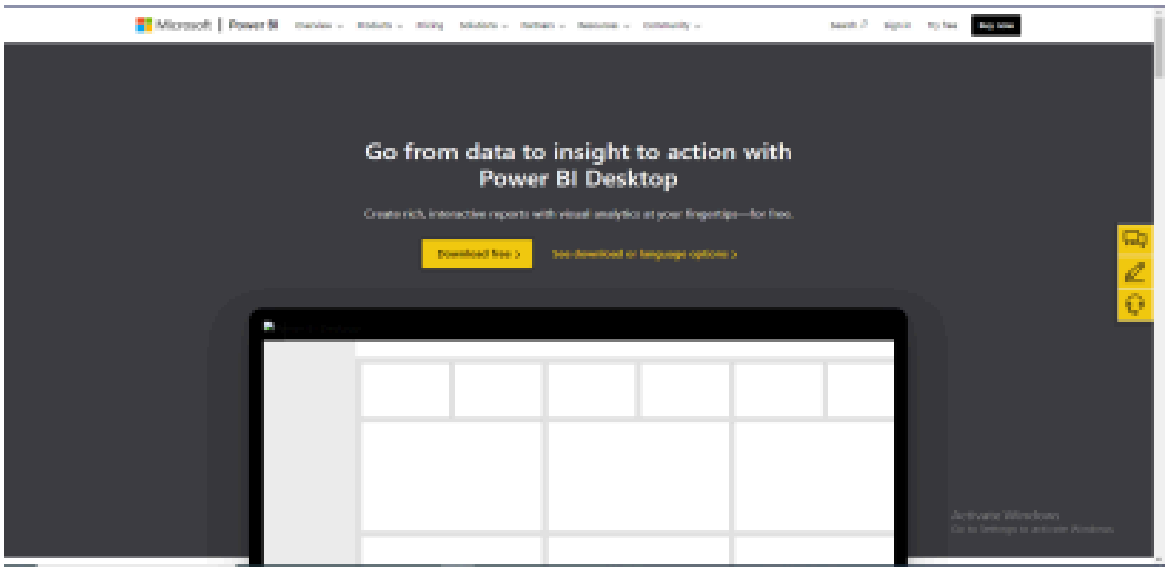
Download Power BI Desktop:

1. **Go to the official Microsoft Power BI website.**

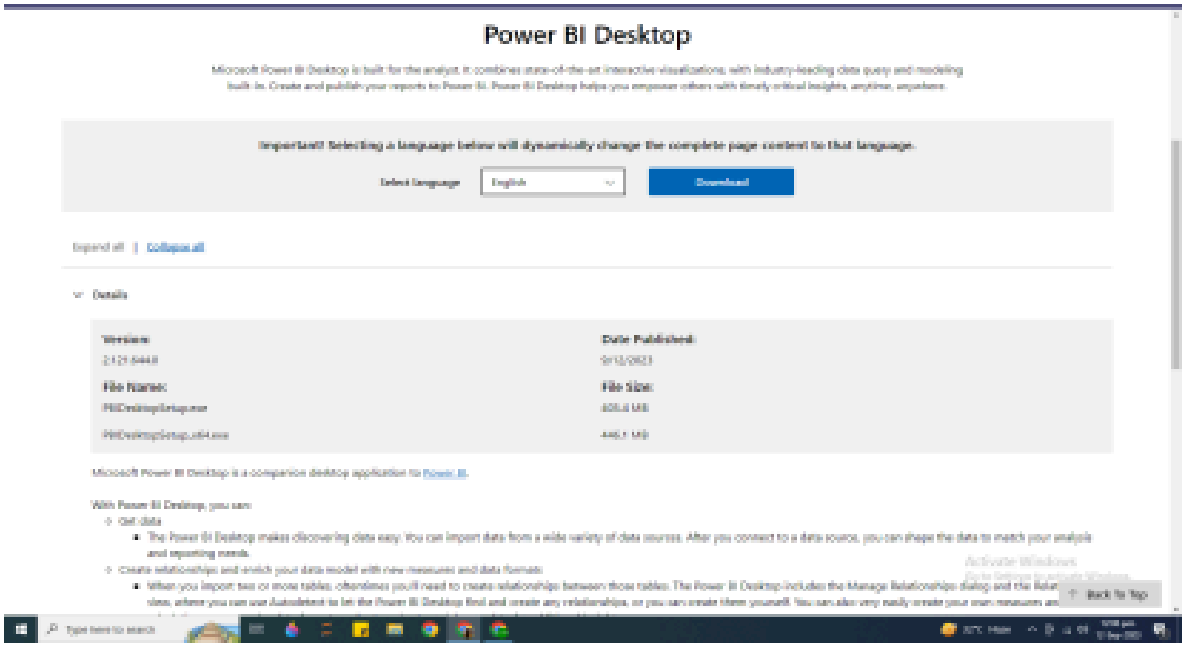


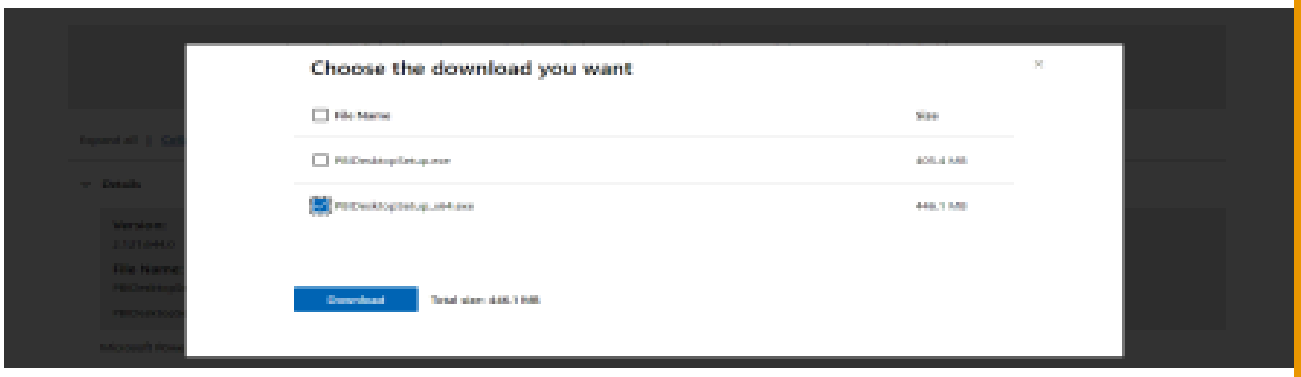
2. **Navigate to the "Downloads" section.**

3. **Click on "Power BI Desktop".**
   https://powerbi.microsoft.com/en-us/desktop/

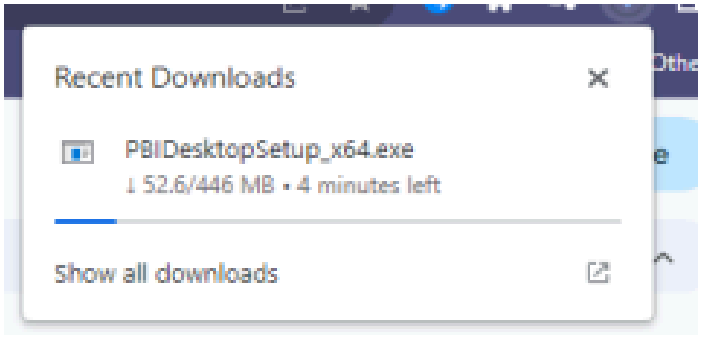


4. **Based on your operating system, select the appropriate download link. Usually, there's a version available for 64-bit and sometimes for 32-bit systems. Most modern computers will use the 64-bit version.**

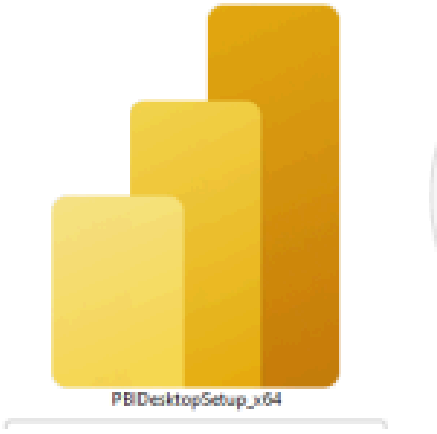




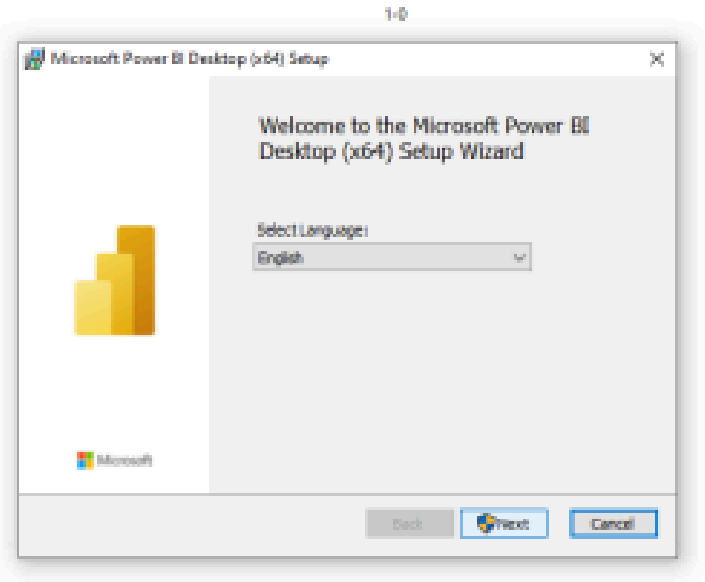
5. **Start the Installation:**



6. **Locate the downloaded .msi file (typically in your Downloads folder).**

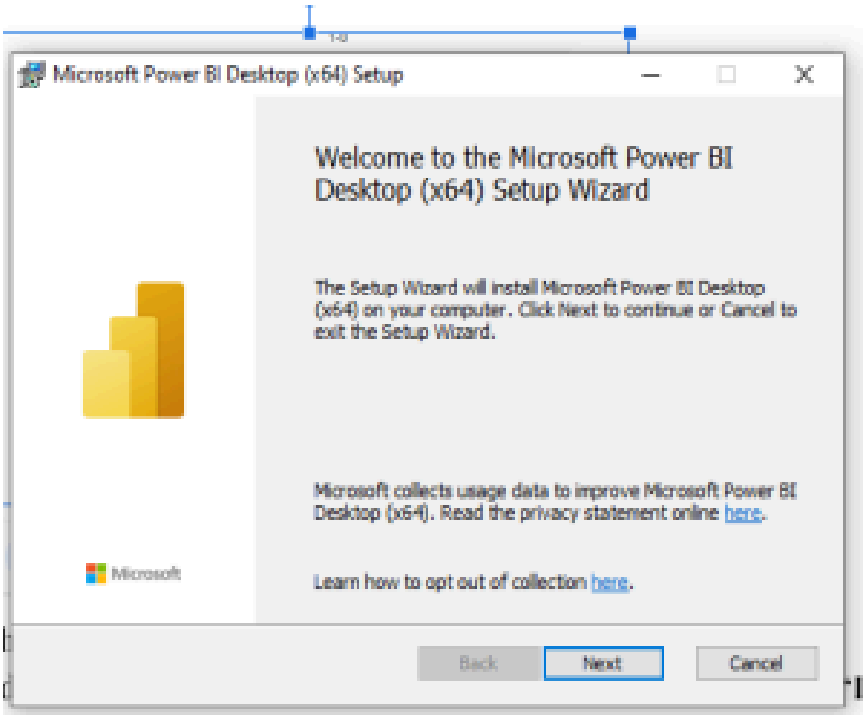


7. **Double-click the file to start the installation process.**

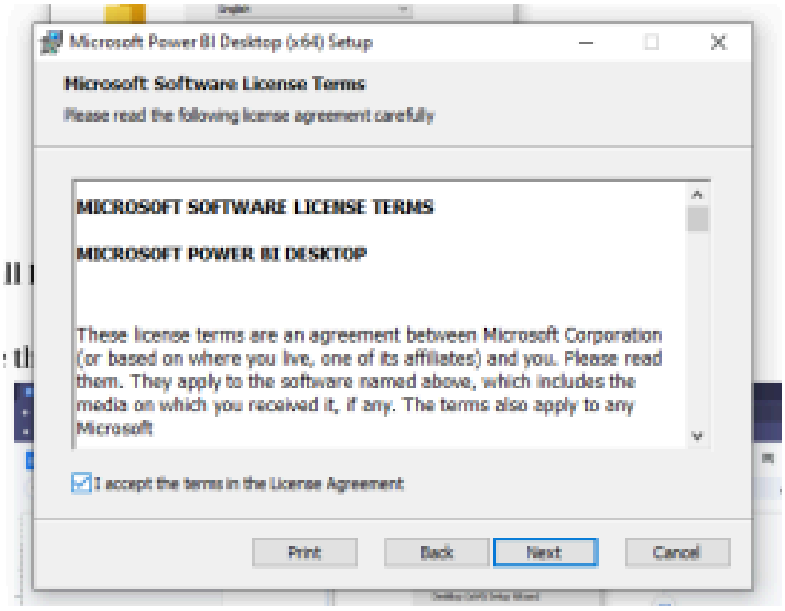


8. Install Power BI Desktop:

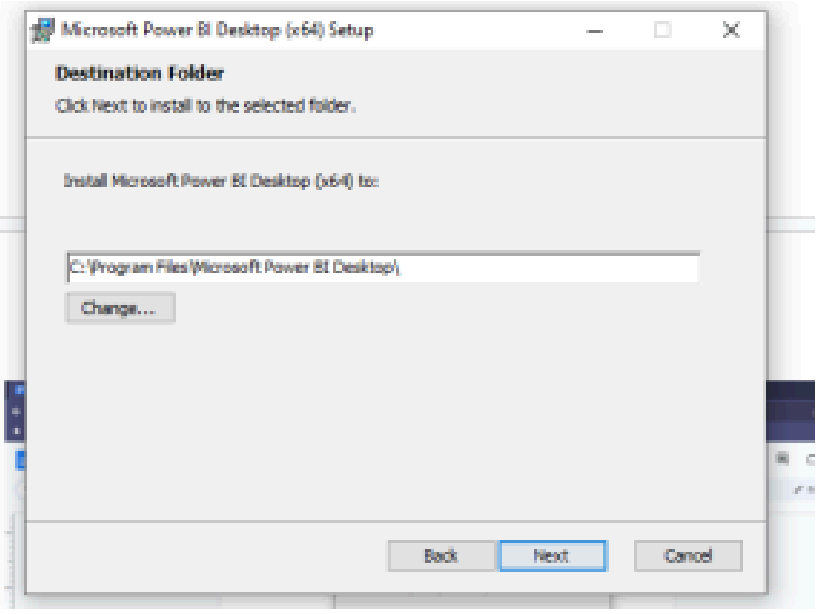
9. Once the installation window opens, click “Next”.



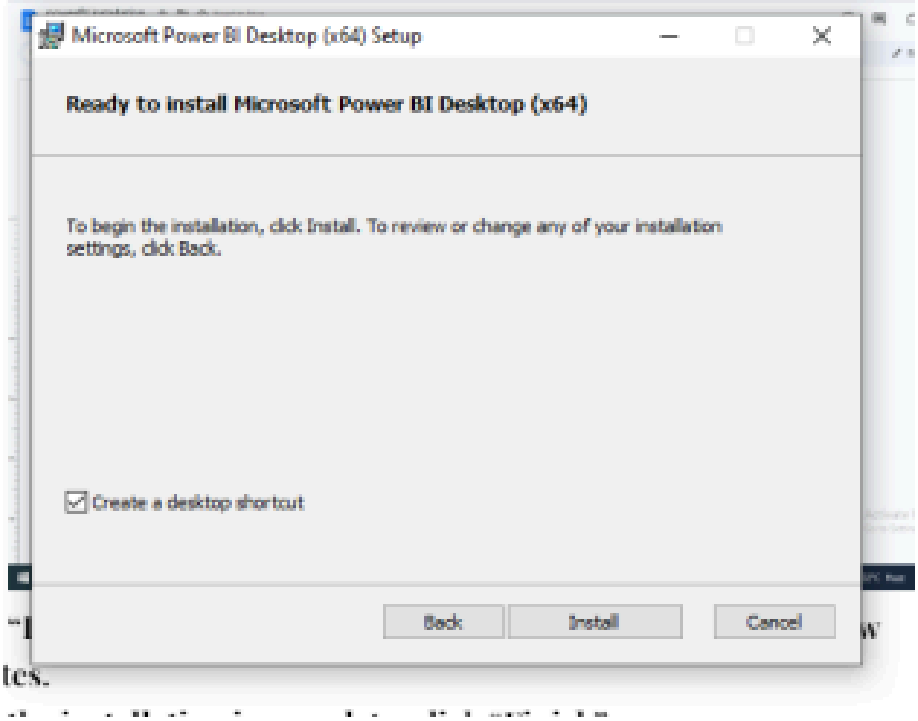
10. Read the license terms and conditions. If you agree, select the "I accept the terms in the License Agreement" checkbox, and then click "Next".



11. Choose a destination folder for the installation or go with the default. Click "Next".



12. Click "Install" to start the installation process. This may take a few minutes.



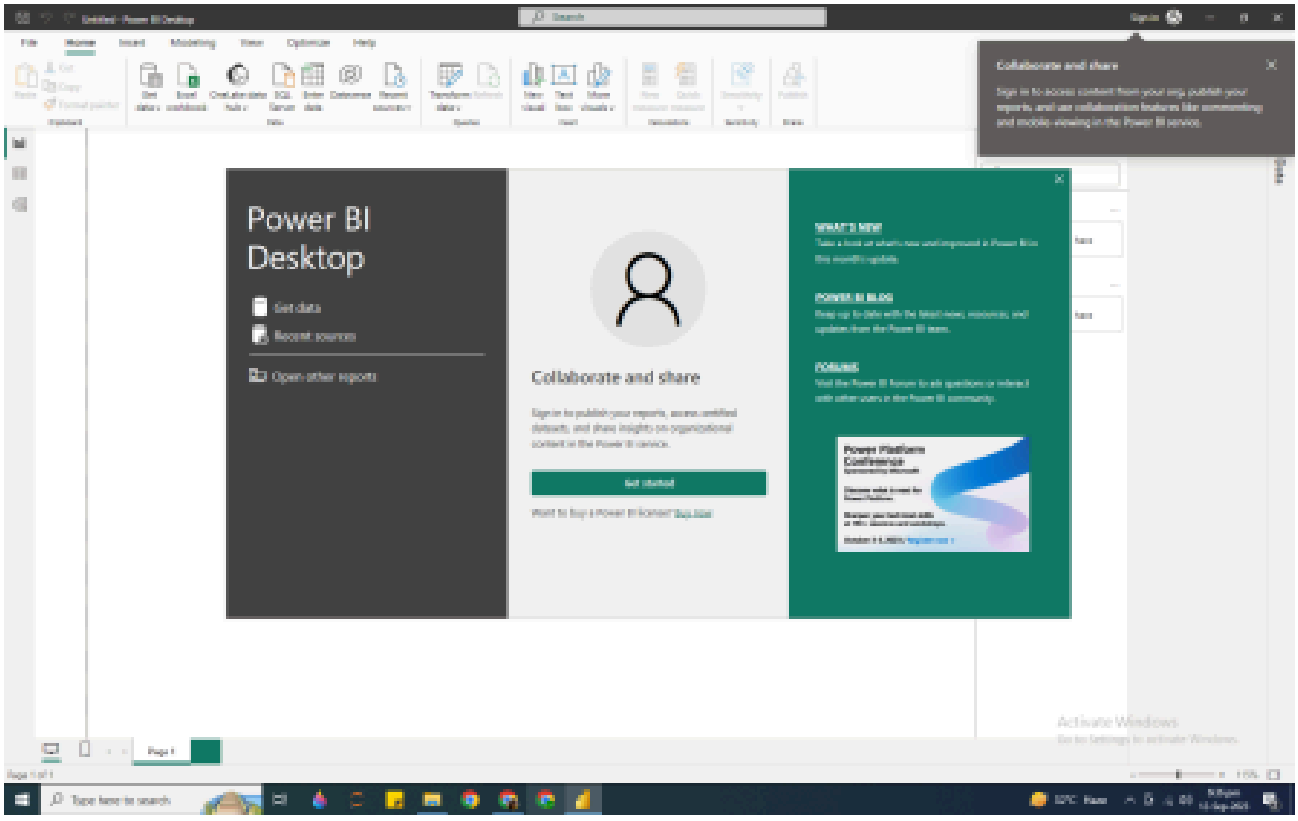
13. Once the installation is complete, click "Finish".

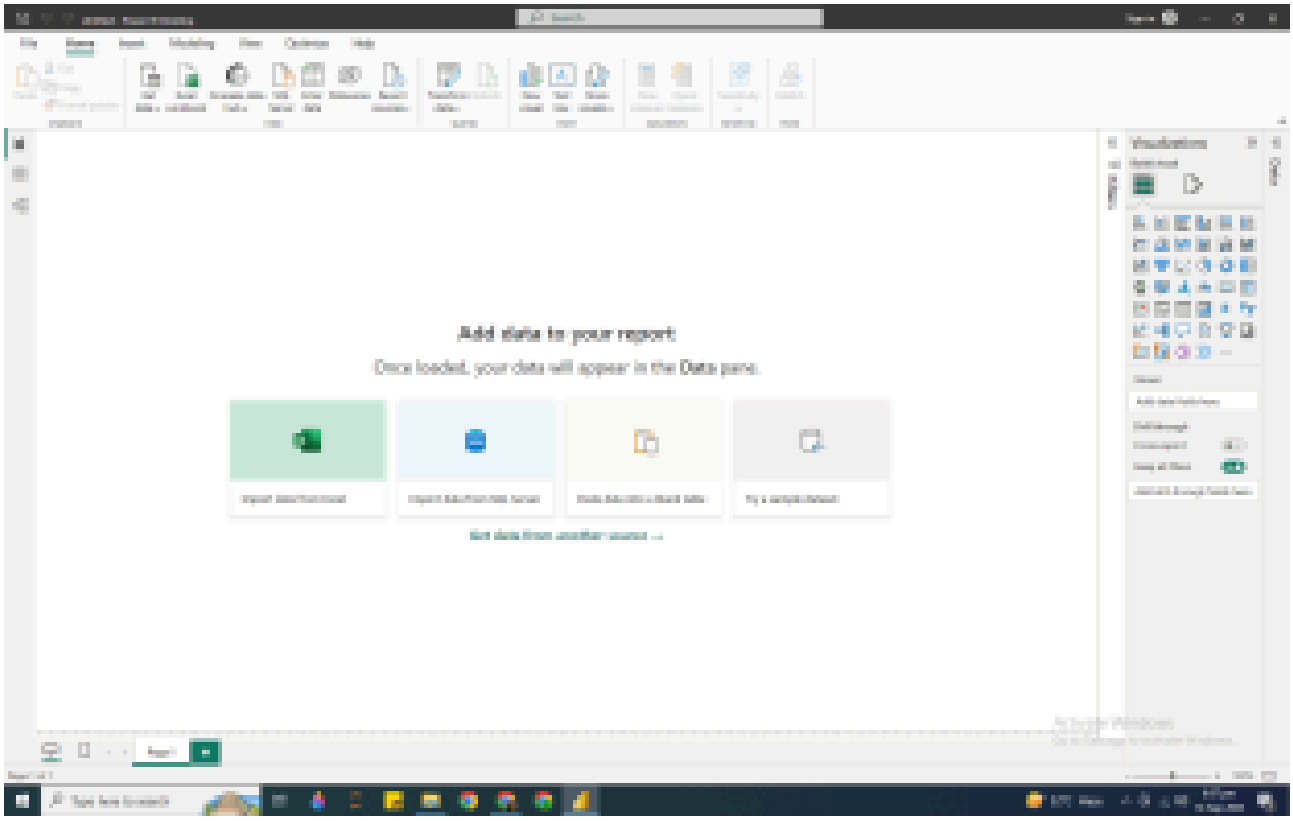
Launch Power BI Desktop:

You can now search for Power BI Desktop in your computer's search bar or find it in the list of installed programs.

Launch the application.

The first time you open it, you may be prompted to sign in. You can use your Microsoft account credentials or the credentials provided by your organization.





Add data to your report
Once loaded, your data will appear in the Data pane.
